

Dr. Brodis On War Poetry

Although the lecture had not been properly advertised, a fairly large audience greeted Dr. Brodis head of the English department of Alberta University, who delivered a scholarly address on "War Poetry" in the first ward chapel last Monday evening. This is the first of a series of lectures which will be given here during the next two months under the auspices of the extension department of Alberta University.

Dr. Brodis is an impressive speaker and showed a deep insight into the subject under discussion. His review of the history of war poetry from early Saxon times to that which has been inspired by the present European conflict was followed with keen interest. The doctor criticized Watson's horrible satire on the death of Kaiser Wilhelm, and, while it was full of intense emotion, it did not reflect the attitude of the British mind.

Tuesday he addressed the Academy student-body in chapel, inspected that institution, also the Central School. While in the city Dr. Brodis was the guest of President Allen.

V. L. Tanner, Alfalfa Seed King Tells of His Success

CLEARED \$3,500 FROM 66 ACRES

Vard L. Tanner B.A., rightly earns the title of the alfalfa seed king of Western Canada. To him will be credited the honor of being the pioneer in this profitable branch of agriculture, for there is no reason why the farmers of this irrigated region cannot take up this new industry and make it a source of wealth production along with wheat and beets.

Mr. Tanner actually cut for seed 66 acres, and off this acreage he threshed 24,000 pounds of seed, No. 1 seed, according to the grading of experts. The whole crop is being sold to the A. E. McKenzie company, seedmen of Calgary and Brandon, for exactly 23 1/8 cents per pound. Get out your pencil and begin figuring, and you will find that this young man

—the object of either ridicule or pity from farmers of life-long standing—will swell his bank account by approximately \$3,500 after paying all expenses.

The expense attached to the culture is not as great as that of wheat; and the returns are more than double. Some argue that Mr. Tanner was favored with a particularly good season, but he says their arguments are un-

founded. The length of the season here and in Utah, one of the greatest seed producing states in the union, is the same. They always have a killing frost in Utah by September 10th, according to his statement.

Goodly returns have been netted by Mr. Tanner, but the value of his experiment to this district if it is followed up, is too far-reaching to be now estimated.

The War

News from the front is very scarce today. In the western zone there is no material change, although in the east, between Warsaw and the Vistula, 500,000 Germans are striving to stem the Russian advance. They weaken perceptibly. On the 19th, the

Sugar Fin...

The shortest campaign in the history of the Raymond sugar mill closed last Tuesday afternoon, the last "strike" of white sugar coming down at 2 o'clock. While the run was only short it gave employment to a large number of men and put considerable money in circulation. The sugar this year is of splendid quality and will find a ready market in the west.

The first shipment of beet seed, according to Mr. Ellison, coming from Holland for the sugar companies of the western states has left Amsterdam for New York, so that all danger of a seed shortage in America is now removed.

Death of Earl Roberts.

At the venerable age of 82 years, Earl Roberts passed away last Saturday in France, the tumult of battle as it were, ushering the aged warrior out of this contentious sphere into his final rest. In the hearts of Brit-herers everywhere our own "Bobs," the hero of a score of battle-fields, held first place among all our national heroes. In him were vested the traits of a noble man and a devoted soldier. Not devoted to the prosecution of campaigns to appease insatiable ambition, but rather to the carrying of a greater measure of liberty and progress to peoples who mourn with us today in this great, national bereavement. Born in India in 1832, it was according to the dispensation of Providence that he should die in the midst of the brave and glorious battle-land, whither he had gone to inspire them in the mighty task of assisting in the overthrow of the barbarous hordes of the German war-lord. He died gloriously.

At this this critical moment we doubly mourn the loss of this great and good man. Advanced age, of course, prevented him from actively taking the field, yet what a wealth of invaluable knowledge could he not have imparted to the staff of the imperial army. But Providence, that power which calls the high and the low, has taken him, and in the mournful procession which shall follow the honored dead to his final resting place, we in Canada shall weep with those beyond the seas. For Roberts of Kandahar has "crossed the bar."

The Municipal Elections

There are some changes in the political situation since last week. L. D. King will not be a candidate, but Alderman O'Brien has entered the field for the mayoralty. It is also possible that he will be opposed. There will also be a race for seats on the council. This is very desirable.

One of the issues of this election is the moving of the town hall from its present location to a site on Broadway, the land to be purchased from H. S. Aiken. The ratepayers should ponder well on this question. The town already has plenty of property, according to our reasoning, to buy more, however cheap it may be. Broadway may be a better location, but can the town afford luxuries in these times? We think not. The keynote today is economy. Let it remain so. The matter was introduced at the last session of the council. It was turned down, and wisely. In its dying hours, no administration should institute new legislation. Finish your old business and leave a clean slate for your successors. And above all things, keep party politics out of municipal affairs.

QUESTION OF WORK AND "MADE-IN-CANADA"

Economic Situation of Grave Concern to Canadians—Cooperation From all Sides to Give Work

The war has had a sudden and pronounced effect on the "Made-in-Canada" movement which has been carried on in Canada during the past few years. Hitherto the educational campaign, to promote the sale of "Made-in-Canada" goods, has been viewed pretty much as the concern of Canadian manufacturers, and as for this reason, been denied the sympathy and support of a section of the people. The war has changed all this, and today the "Made-in-Canada" policy is no longer looked upon as a matter of sentiment and patriotism, but is regarded as an economic necessity. The manufacturers and other large employers of labor are being appealed to by press, pulpit and public men generally to provide the maximum of employment with a view to relieving the distress caused by the closing of many factories as a result of the war. Obviously Canadian factories cannot be operated unless there is a demand for their products. Hence the appeal on the part of Canadians to patronize the goods made by their fellow-citizens in Canadian factories. It is admitted on all sides that there will be considerable unemployment, and consequent suffering during the next few months in Canada, but if every Canadian would, as far as possible, patronize home industries, orders would come in to many Canadian factories that have hitherto been placed abroad, and instead of a slackening in factory activity the wheels of industry might be operated with accelerated speed during this period of trial.

Manufacturers and other large employers of labor have agreed among themselves to maintain their working staffs as fully as possible even if they operate at cost or at some other low cost. In so doing they are not actuated by any desire for profits, welcome as these would be, but solely with a view of relieving the distress which unemployment always brings. They feel that it is far better to furnish a livelihood for Canadians through honest work and honest wages than to devote out a package through charitable institutions. "Made-in-Canada" is, therefore, more than ever a practical business policy today. Every Canadian household is in fact every purchaser of goods in Canada under pretence it and encourage others to do likewise. About fifty cents of every dollar goes to the product of a factory goes to the workman. All interests are, therefore, combining in Canada during this period of trial to increase employment by distributing as much as possible in the form of wages to the Canadian workmen in the Canadian factory. The example of the Canadian Press Association in this direction is most commendable, and will do much to restore confidence in the business and industrial community.

THE OUTLOOK IN CANADA

Handicap For Some Industries—Increased Activity For Others

Truly, it is an ill-wind that blows nobody good. One Continent's "down" is another Continent's "up." The industries of Europe are, generally speaking, at a standstill, and matters will be worse before they can be better.

The whole world is looking to the North American Continent—to Canada and the United States—for much of its provisions, machinery, textiles, boots and shoes, beverages, vehicles, cement, brick, earthenware, fancy goods, furs, glass, garments, paper, soap, tobacco, wood products, and much else. Canada must get ready to meet the demand made upon her. We have continued prosperity ahead of us if our manufacturers and merchants rise quickly to take advantage of their opportunity.

Encouraging Manufacturers

Last week was "Made in Winnipeg" week in the Manitoba capital, and manufacturers, retailers and citizens generally cooperated to bring the products of local industries before the public and to urge Winnipeg people to help build up a bigger and better city, by using goods made in local factories. The object is a most worthy and commendable one, and the response which has been made by the citizens shows that western cities, as well as the older cities of the East, are developing a civic pride and a local patriotism that will be for the good of the community.—"From 'Grain Growers' Guide,' May 27, 1914."

How Ottawa Women Are Combining to Ensure Employment For Canadians—A Good Plan

"At a time when the Empire is straining every nerve against the common enemy it is essential that each and every section of the community should stand together. Canada is sending her soldiers to the help of Great Britain, but it must be remembered that scarcely less effective help can be rendered by keeping trade and industries prosperous throughout the Dominion. No one is able to say how the strain of war may affect us. Already there is a prospect of unemployment on a considerable scale during the coming winter."

"There are many ways in which the evil of unemployment may be fought, but one way is to keep up the demand for Canadian products in order that Canadian industries may continue in operation. Articles that are being produced in Canada are also being imported annually to the value of \$104,659,375. By purchasing only commodities produced in Canada we should largely increase the output of our industries and provide employment for large numbers of workmen. To attain this desirable end it is hoped that, in so far as possible, housewives and others will buy products 'made in Canada.'"

Household League

This was the resolution passed at a meeting of several leading Canadian women in Ottawa on Saturday. They met to discuss ways and means whereby the women of Canada could effectively lend their assistance in tiding Canada over the probable stress and trial of the coming winter. Amongst the ladies present were Mrs. T. W. Crothers, wife of the Minister of Labor, Mrs. W. P. Herridge, wife of the moderator of the Presbyterian Church, Mrs. Adam Shortt, Mrs. Dr. Lyman, Mrs. R. H. Coates, and Mrs. J. A. Wilson, national convenor of Household Economics. The meeting was held under the auspices of the Household League of Ottawa.

Official figures relating to the importation of goods produced in Canada were laid before the meeting and it was found that in certain products \$29,327,093 worth of the \$104,659,375 imported came from the United States.

Canada, a wheat country herself, imports \$28,617 worth of wheat flour from the United States. If Canadian women would see that they purchased Canadian flour only this in itself would be a great help.

Soap is another household commodity which is manufactured in Canada, yet we import \$1,327,297 worth a year. 317 men are employed in this industry in Canada, but if our women would purchase only Canadian soap there would be employment for very many more.

It is the same with baking powder. We import \$173,153 worth, the amount from the United States being \$177,517.

Figures given by Canada imports blue for washing clothes to the extent of \$50,421, biscuits \$75,509, buckwheat meal or flour \$20,450, corns \$50,054, baskets \$18,970, buttons \$85,822, candles \$38,808, carpet sweepers \$16,102, clothes-wringers \$26,483, combs \$238,516, cotton-goods which includes embroideries, clothing, socks, and stockings \$27,215, 112, canned fruit \$232,297, gloves \$2,786,788, hair work \$218,104, jelly and jams \$315,817, Italian corn meal \$176,779, lard \$1,356,292, milk \$22,204, oatmeal and rolled oats \$2,526, pickles \$465,866, rye flour \$19,577, silk \$8,877,576, sauces \$341,213, paints \$1,768,356, sugar candy and confectionery \$1,549,867, starch \$109,148, woolen goods which includes shirts, stock-ings and knitted goods as well as tweeds \$30,723,717, stores \$1,053,867, hats and caps \$792,746, fur \$1,373,121, fancy goods \$5,610,020, dried apples \$18,532, furniture \$3,187,736, cocoa \$1,046,121, blacking \$126,229, brooms, whisks, etc., \$697,210; boots and shoes \$520,709, aerated waters \$24,702.

In the production of these articles of household use there are 1,631 establishments throughout Canada and there are 82,630 employees. It would stimulate industry and it would mean employment for more if Canadian men and women would insist upon receiving Canadian goods when they are making purchases.

The shutting off of imports from Continental Europe into Canada, due to the war, gives many home industries an unprecedented opportunity for immense and immediate development.

Canada will prosper at the expense of Continental Europe. This is not a time in Canada for relying on the part of the business man. We must be careful, even frugal, but we must also be bold.

WHEN YOU'RE SICK YOUR WAGES STOP

You know that means—money—worry—big bills—debt!

You know you can't afford to get sick. Keeping in good health means food and clothing for you and your family. It is up to you to take care of yourself. It is up to you, whenever you don't feel right, to take something to make you right, to strengthen you, build you up, ward off worse sickness—protect you and your family. That thing we have is Rexall Olive Oil Emulsion.

In offering it to you, we protect you against money-loss, by personally promising you that, if it does not restore your health, we will give back your money without word or question. We believe it is the best builder of healthy, energy and strength you can get. It is helping many of your neighbors. If it don't help you, we will give back your money.

Rexall Olive Oil Emulsion is composed principally of pure Olive Oil and the Hypo-phosphites. Each has long been endorsed by successful physicians. Here they are for the first time combined. The result is a remarkable nerve, blood and strength-building remedy that is both food and medicine. For all who are nervous, run-down and debilitated—to matter what the cause; for old people; for convalescents; for young children, we know of nothing that will give health and strength as quickly as Rexall Olive Oil Emulsion. It is a real builder of good blood, strong muscles, good digestion. Pleasant to take, it contains no alcohol or habit-forming drugs. If you don't feel well, economize both money and strength by beginning today to take Rexall Olive Oil Emulsion. Sold only at the Rexall Stores, and in this form only by us. \$1.50.
